SHAPESCAPER™ modular steel landscaping

Manufactured in Australia with BlueScope® Steel

SHAPESCAPER™ planters feature a modular design that creates extremely durable and attractive weathering REDCOR® steel planters suitable for both domestic and commercial installation. The design incorporates smooth rounded edges and a top 40mm x 20mm return rim for added strength and safety. Planters are supplied in two halves that are easily joined. They can also be combined with a range of extender lengths to create your own custom designs. Pre-drilled holes make assembly very easy and alignment perfect every time.

SHAPESCAPER™ modular steel landscaping

Manufactured in Australia with BlueScope® Steel

The SHAPESCAPER™ Hexagon and Box planters can be easily customised on site to fit a wide range of designs simply by using the extensions pieces listed below. Straight length extenders and 90° corners are typically used to modify box planters while the 60° corners are commonly used to modify hexagon planters. The planter system is however completely modular, being totally interchangeable across the range, even when joining the 500mm and 700mm profiles.
